DETAILED ACTION

1. This communication is responsive to the applicant's Appeal Brief dated 5/16/2003

2. Applicant's request for reconsideration of the finality of the rejection of the last Office action (Appeal Brief) is persuasive and, therefore, the finality of that action is withdrawn.

Claim Rejections - 35 U.S.C. § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 2-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Berkovitz.

Each of cited references above teaches an apparatus and method of processing at least one channel input signal comprising the steps of: receiving the input signal; modifying the input

Art Unit: 2644

signal to produce a second signal; variably controlling one of the input and second signals; and mixing the variably controlled signal and the not variably controlled signal to produce variably controllable third, fourth, and fifth channel output signal (Figs. 4-6 of Berkovitz).

5. Claims 4-5 are allowed over prior art of record.

Response to Arguments

6. Applicant's arguments filed in the Appeal Brief regarding claims 2-3 have been fully considered but they are not persuasive.

Claims 2-3 broadly claimed "means for mixing the variably controlled signal and the not variably controlled signal", and Figs. 4-6 of Berkovitz still met the claimed invention. Claims 2-3 ***do not called for the input signal being directly connected to the mixer(s)*** for generating the 3 output signal as argued. And means for mixing the ***variably controlled signal and the not variably controlled signal*** is met by each of Figs. 4-6 of Berkovitz.

Art Unit: 2644

The arguments regarding other references as present in the previous final rejection are deemed persuasive and the rejections in regard to those references is withdrawn in this action.

7. **Any response to this action should be mailed to:**
